

#### **NBRC 2017 Expenditures Report**

#### **Disparities Data Collection**

An amendment to the Lanterman Act Section 4519.5, requires the Department of Developmental Services (DDS) and the regional centers to collaborate to compile data relating to purchase of service authorization, utilization, and expenditure by each regional center with respect to all of the following:

- The age of consumer, categorized by the following:
  - o Birth to age two, inclusive.
  - o Three to 21, inclusive.
  - o Twenty-two and older.
  - Race or ethnicity of the consumer.
- Primary language spoken by the consumer, and other related details, as feasible.
- Disability detail, in accordance with the categories established by subdivision (a) of Section 4512, and, if applicable, a category specifying that the disability is unknown.

The data shall also include the number and percentage of individuals, categorized by age, race or ethnicity, and disability, who have been determined to be eligible for regional center services but are not receiving purchase of service funds.

NBRC has collaborated with DDS to produce this data. While it depicts a comprehensive set of expenditures, there are some limitations to note in reviewing this data:

- It only includes cost of services consumers receive that are paid by regional centers
- Services that are purchased under contract, e.g., supported employment and transportation, are not reflected
- Consumer count reflects numbers that are greater than actual caseloads, and short-term services are weighted the same as long-term services
- Multiple diagnoses: consumers often have more than one diagnosis and will be counted in more than one category
- Some services are more expensive than others, especially in regards to place of residence
- Differences in expenditure do not mean that needs are unmet
- This data does not capture the services and supports provided by community resources including MediCal, Social Security, HUD, etc.
