

NBRC's Priorities for Service Development Fiscal Year 2024-25

A Community Resource Development Plan ([CRDP](#)) is developed by each regional center in California with stakeholder input. This plan will be used to develop new resources for individuals with developmental disabilities living in the community.

NBRC gathered stakeholder input via survey and needs assessments to determine the below DRAFT local priorities for the development of NBRC's Community Resource Development Plan:

- Paid Employment opportunities
- Dementia Services
- Affordable Housing
- Substance Abuse Treatment
- Intense Behavioral Services
- Socialization and Training Programs
- Speech Therapy
- Nursing
- Paid Internships
- Residential options for individuals with intense needs

NBRC will submit its 2024-25 fiscal year Community Resource Development Plan to the Department of Developmental Services by September 3, 2024. Once the plan is approved by the Department of Developmental Services, NBRC will publish Requests for Proposals asking service providers to develop new services to meet these priorities
