

NBRC's Priorities for Service Development Fiscal Year 2025-26

A Community Resource Development Plan ([CRDP](#)) is developed by each regional center in California with stakeholder input. This plan will be used to develop new resources for individuals with developmental disabilities living in the community.

NBRC gathered stakeholder input via survey and needs assessments to determine the DRAFT local priorities below, for the development of NBRC's Community Resource Development Plan:

- Affordable Housing
- Specialized residential services for individuals with unique needs
- Day Services for individuals with behavioral service needs
- Employment Services
- Forensic Services
- Dementia Services

NBRC will submit its 2025-26 fiscal year Community Resource Development Plan to the Department of Developmental Services by September 15, 2025. Once the plan is approved by the Department of Developmental Services, NBRC will publish the plan and Requests for Proposals asking service providers to develop new services to meet these priorities.
