Jason's Individual Budget

Last 12 Months of what was spent on regional center services: \$63,100
(Day Program, Personal Assistant hours, Independent Living Skills training)

Sofia's Individual Budget

Amount spent in last 12 months: \$2,100
(Respite – 7 hours/month used)

Sofia and her family talk with the team about a change in her individual budget.

Sofia's Unmet Need:

Sofia's previous IPP reflects that 40 hours of respite was needed per month. Sofia's family did not use all the hours because her grandmother, who is her provider, was not available. Her grandmother was helping to care for another family member and could not provide the respite to Sofia that was needed. Sofia and her family still need 40 hours per month so the team discusses this as an unmet need. They decide that the hours of respite that weren't able to be used each month were an unmet need.

Adjusting the Individual Budget:

Regional center determines an additional \$9,900 would have been spent on Sofia's services had all of her needed respite been provided.

Regional center certifies the adjusted individual budget of \$12,000.
