MARY IDA COOK LIFETIME ACHIEVEMENT AWARD – 2025

The Mary Ida Cook Lifetime Achievement Award was created in 2016. It was an award created to honor Mary Ida Cook after she passed away, for her outstanding commitment to people with developmental disabilities. Mary was a North Bay Regional Center Service Coordinator for 20 years. She was fluent in American Sign Language and upon coming to NBRC she found that many community services did not have staff who were skilled in ASL. She took the time to assist staff in learning ASL to better serve those who were deaf or hard of hearing. Mary was an invaluable asset to NBRC, she also provided interpreting services for

our clinical team. Mary Ida Cook's positive energy and passion for the people we serve will always be a part of NBRC's history. Since then, North Bay Regional Center continues to award an individual at our Annual Board of Directors meeting who shares the same passion and dedication to the DD/ID community, with the Mary Ida Cook Lifetime Achievement Award.

A questionnaire was sent out asking for public comments/questions to be asked of the Legislature at the event. The goal is to get the questions to them in advance, so they are prepared. There is a mix of representatives from federal and state levels from all three counties. They are hoping for an open dialogue less than a presentation with a focus on what makes this work challenging. VAC attendees suggested topics including adherence to the employment first policy and plans to protect Medicare if the feds cut. It was mentioned that there are several new people in leadership roles in our community, so education is critical.

It will be Wednesday April 2nd at 6pm in the Napa office and via Zoom. Breeanne asked if anyone had anything they would like to share as a highlight of the year. Could be DSPs who are making a difference or client success stories. She suggested that VAC attendees have

those stories directly with Gabriel asap.

G. SPECIAL PRESENTATION on Social Recreation- Geri Audette, NBRC Communications Specialist

- a. NBRC Person Centered Policy – Geri shared a PowerPoint presentation and indicated it is all about having a person centered mindset. She shared DDS is rolling out an IPP and shared a video related to this. Gabriel mentioned that NBRC is taking steps to become a more person centered organization. The board is developing a person centered policy to guide the activities. Questions were raised about how the vendors might also join. Courtney shared that vendors have had the opportunity to be trained in person centered thinking through use of HCBS funds. This will continue to be an option in the future. Vendors gave some feedback on the new IPP saying it was missing NBRC letterhead and critical information. The NBRC team responded that they agreed and would work on some consistent systems. Beth shared that she plans to present the new IPP document to the VAC at some point in the future.

Geri shared the following link to a series of videos.

H. GROUP REPORTS

- a. Napa / Solano Vendor Group- Kelley reported that the group met on 3/6. There was discussion about the challenges with the Provider Directory, staff training requirements for the 532 behavioral programs, R&D transportation and unmet needs (scheduling is slower than normal), and clarification on social recreation. She suggested that those with questions can call Kelly Weber directly. If there is someone in Napa or Solano who wants to join this group, contact kelley@pacesolano.org to get on the mailing list.
- b. Sonoma Vendor Group- Elizabeth Clary shared that a meeting is being scheduled for the week of 3/24. She shared a Doodle Poll <https://doodle.com/meeting/participate/id/bq6OYNkd> for those interested in joining. Contact Elizabeth if you want to join the Sonoma Vendor Group elizabeth.clary@alchemia.org
- c. North Bay Housing Coalition- No report
- d. NBRC Board Report- Breeanne reported that the board met at the new Solano location. There was an open house and a short business meeting. The audit was approved. This is Rosemary's last month on the board, and she will be missed. Christopher Bennett (self-advocate and legislative expert) and Cheryl Snavely (parent) were approved on the board. Alan Kerzin is also pending but on hold for the moment. The board also had a training on the Public Records Act which was very informative. Breeanne and Gabriel will keep vendors updated on this topic.

Breeanne shared that Grass Roots Day was last week. 2 Self Advocates, 2 board members and Gabriel attended. They shared stories with local legislative staff.

- e. ARCA Report - Gabriel said that if vendors have success stories, please email him this week. He said they are closely monitoring what is happening with Medicaid and will keep the vendor community updated. He thanked Breeanne for joining Grass Roots Day. He also thanked Elizabeth for Dance Alchemia who came to their all staff meeting and thanked Carin for the Peer Advocate Leadership Cohort program. He expressed appreciation to all the vendors who showed up at the open house and other vendor events. There is lots of good things going on despite the challenges. Lastly, he shared that NBRC is switching from Zoom to Teams for video conferencing effective May 1st. This is for cost savings and increased security reasons.

f. Committees / Subcommittees

- Public Policy Advisory Committee – Linda shared that the group discussed the Legislative Luncheon. They will have a catered lunch and if vendors would be willing to make donations, that would be super helpful. In the past UCPNB and The ARC Solano have paid for the lunch. If interested, please make checks payable to *Pace Solano care of the VAC*. The plan is a boxed lunch from Panera. Please share the flyer around.
- Linda also shared a few more details about Medicaid cuts. The House passed the 2024 budget resolution. The blueprint directs the Energy and Commerce Committee to cut \$880 billion. These cuts would impact disability services and there has already been advocacy from the community. Effective March 14th there needs to be a budget, or the government will shut down. President Trump is asking the legislature not to let that happen. There is a hearing for Dr. Oz's confirmation coming up in March and this will be a point of interest for our services as well.

I. NBRC UPDATES:

- a. Fiscal - Isabel shared that rates have been updated; however, some have not had the retro adjustments issued. The retro payments will be issued after the check run.
- b. Vendor Relations – Courtney shared that rate agreements are out except respite, early start and behavioral services. She shared an updated link to the Provider directory (see below) that lists who qualifies for the QIP. If your rate wasn't updated and you are on the QIP list, they will go ahead and update rates in the near future. If you have not received the rate agreement letter, check SignNow in your junk mail files. Reach out to Courtney if you have questions. Isabel also shared they will issue the 10% additional payment after they finish rolling out the rate updates. The process is complex, and the system limitations have made it a bit challenging. She thanked everyone for all their patience. They hope to have all rates updated soon. As a reminder, PLEASE complete the Provider Agreement when you receive it

Updated Provider Directory List can be found here:

https://www.dds.ca.gov/wp-content/uploads/2025/03/QIP-Eligible-Posting_20250304.xlsx

- c. Consumer Advocacy - Ellen handed out the newest version of the Advocator which focuses on person centered thinking. She is working on the spring issue to come out later in April. She has been working on the legislative lunch and is sending flyers to many of the legislative folks in our area. She is also working on a plan to grow wellness programs. She shared that Special Olympics is hosting a Basketball tournament.
- d. Transportation Review – Letty shared this presentation is for 880 service providers (day programs that have a transportation component). 875 providers should reach out to R&D separately. Below is a summary of the key points in the presentation:
 - Transportation Rate Acknowledgement Forms will be sent to the vendors within the next couple of weeks and are due back by 3/31/2025.
 - Authorizations need to align with new service codes by 12/31/2025.
 - If your current rate is more than the rate determined by the rate model, you will be held "harmless" which means you can retain your current rate until 6/30/2026. Effective 7/1/2026,

rates will be adjusted to the rate model. To qualify for the full rate (including 10% QIP) the vendors must participate in the DDS Provider Directory.

- Rates are transitioning to a per person trip rate. Ambulatory riders are \$16.49 per trip and non-ambulatory riders are \$17.26 per trip. Most individuals will have 2 trips per day. An Aide that assists during transportation is \$33.99 per hour and must be authorized by NBRC. This is a 1:1 service and the Service Code is 882.

To recap:

- Returned Transportation Rate Acknowledgement Forms are due to NBRC by 3/31/2025.
- NBRC will align new rates with corresponding sub codes after all forms are received from vendors.
- R&D will work with NBRC to update rate tables in e-billing.
- By 12/31/2025, all authorizations need to transition to applicable sub codes.

"DisCo at the Capitol"

Recently I attended the "DisCo at the Capitol: California Disability Community Advocacy Conference" which the Arc of California of the California Disability Advocacy organized. The annual conference inspires, educates, and empowers attendees to become advocates for Californians with developmental disabilities. The conference is presented by The Arc of California, Easterseals, and United Cerebral Palsy. Each year, the conference features nationally-known speakers who have been trailblazers who promote policies that improve the disability system, enabling people with disabilities to live inclusively in their communities. Attendees include individuals with disabilities, their families and support staff, service providers and regional center employees, governmental officials, educators, and other leaders and advocates within the disability community, and Regional Centers from up and down our State of California. I was happy to see MFTI Board Member Sue Samuel there, and we talked and took a good picture together!

Reflections on MFTI Podcasting Class

By Ellen

While Mondays can be a drag, having MFTI Podcast class is like making a wish on a dandelion. The class is a chance to relax and start the week with a clear mindset. At the beginning of the Podcast class, we all have a nice back and leg stretching session before we talk about different topics. This Podcast class really focuses on supporting each other by educating and helping us to learn about individuals while socializing. Some of our staff share words of wisdom from the heart and always encourage us in a positive way. For me, the class feels like therapy every time we have it, and it makes me feel better about myself.

"The reason I started the Podcast class is to give those residents that normally don't talk much a chance to speak up for themselves" Keith

"I really like doing Keith's amazing Podcast because it gives us all a chance to express ourselves in a positive environment where it's safe to share what you want to say" Paige

"Keith's Podcast is a time where we as a community come together and have genuine conversations" Henry

Happy Birthday Bash!

What do you love to do on your birthday? For me, I love having my parents come to Napa and celebrating it here!

When Mom and Dad came, they wished me a cheerful "Happy Birthday!" I texted my twin sister, Maggie, after having mailed her a birthday card early that morning. My Aunt Becky also joined in the fun! She and Mom gave me my presents, which were: A stronger poncho; 3 pairs of cozy socks; 2 fidget spinners; 2 USB-A/USB-C chargers for fast-charging my electronics; and a PlayStation Store gift card (from Maggie's boyfriend, Nate).

My parents and I shopped for multiple cheese and pepperoni pizzas at Costco along with groceries for me. Then it was party time! We delivered pizzas and tortilla chips to MFTI campus, and my friends and staff wished me a happy birthday! We all had pizza and chips for dinner followed by vanilla ice cream and homemade oatmeal chocolate chip cookies for dessert. All attendees excitedly danced to the music, including NSYNC's "It's Gonna Be Me".

After the celebration, I said goodbye to my friends, staff, and family and wished them a pleasant evening. I hope Maggie and I can see each other in Portland for Thanksgiving! I am currently making "HAPPY BIRTHDAY" letters from sketch paper, but for now, I must write a thank you card to Nate for sending my present to me.

FEATURED EDITOR'S PICK

Medicaid cuts could have Napa, Bay Area impacts

BARRY EBERLING barry.eberling@napanews.com

Apr 19, 2025

Rep. Mike Thompson recently visited the North Bay Regional Center in Napa to discuss threats to Medicaid funding.

Courtesy of the office of Rep. Mike Thompson

Updated at 11:40 a.m. Monday — Federal budget-cutting proposals that Rep. Mike Thompson says threaten Medicaid have some in the North Bay fearing they will pay a price, from people with disabilities to hospitals.

Congressional Republicans have instructed the House Energy and Commerce Committee to cut spending by \$880 billion. The committee has jurisdiction over Medicare and Medicaid.

Thompson, D-St. Helena, opposes the proposed cuts, saying they can't be made without destroying Medicaid. He delivered that message April 17 at Napa County's North Bay Regional Center, which serves people with disabilities.

U.S. Rep. Mike Thompson

"I know these Medicaid cuts are going to hurt," he told the gathering of a couple dozen people. "They're going to hurt your community. They're going to hurt the greater community. And they will be devastating. And the person imposing them is not nice."

Medicaid — called Medi-Cal in California — is a government insurance plan for people who have low incomes or disabilities. The Georgetown University McCourt School of Public Policy estimates 18.8% of Napa County residents had Medicaid coverage in

2023, or about 26,000 people.

Republican leadership has said the goal is to target people who are on Medicaid and are ineligible for the program, not qualified recipients.

"Social Security won't be touched, other than if there's fraud or something," President Trump said in a White House posting. "It's going to be strengthened. Medicare, Medicaid — none of that stuff is going to be touched. ... Now, if there are illegal migrants in the system, we're going to get them out."

Thompson expressed doubt there is widespread Medicaid fraud. "Waste, fraud and abuse has always been kind of a straw person," he said.

Some of the families at the North Bay Regional Center event who depend on Medicaid are worried. They talked about their fears with Thompson.

Loree Trojan has Williams syndrome, a genetic disorder that can cause various organ problems. She has suffered from a stroke and hemorrhaging of her colon, though she looked healthy and happy on this recent day.

"I need my medication to help me live forever and not die," she told Thompson. "I don't want to have a heart attack."

She does cleaning jobs through the Pace Benicia, a program serving adults with disabilities. That gives her some spending money.

"I go out places to have fun with friends and family," she said.

She lives with her sister, Kelly Trojan, in Vallejo. Kelly Trojan said Medicaid is crucial to help cover the cost of medication and the doctors familiar with Loree Trojan's history.

"For my dear sister, it's life and death," she told Thompson.

Toni Marie Giardello was born without arms and faced other physical problems. Her sister Joanne Giardello said she "looked like a broken bird." But her mother ignored doctors who said she should be allowed to die.

Today, Toni Marie Giardello is 68 and goes to the Pace Benicia day program. She cares for cats at a pet store and goes to lunches and participates in other activities.

"I meet a lot of people," she said.

Her sister Joanne Giardello is worried about the possible Medicaid cuts, given they've found just the right doctor and one who takes Medicaid. She also thinks the job and social programs used by her sister are threatened.

"It is absolutely life and death," she said.

Joanne Giardello told the Napa Valley Register she isn't comforted by Republican leadership's claim that eligible Medicaid recipient won't be hurt.

"I'm very worried," she said. "I don't trust their word at this point."

Kelly Trojan told the Register she is also concerned.

"I hope they have some morality and human decency about them," she said. "I'm not either Republican or Democrat and I know people from both sides of the aisle. It's been my impression most Republicans also want people who need it to get the care they need. But it's such a free-for-all right now, I am worried."

Lisa Colarusso of ParentsCAN in Napa heard these and other tales as she sat in a conference room with Thompson.

"It's the stories that are going to make a difference," she said.

Thompson said the stories need to be told in Republican districts. Republicans hold a narrow margin in the House of Representatives and 12 have said they oppose Medicaid cuts, though Thompson said they left themselves some loopholes.

"We only need three," he said. "Just three."

Some at the North Bay Regional Center meeting predicted Medicaid cuts would effect more than the poor and those with disabilities. Thompson pointed to a news conference he held in March in San Francisco.

Amy Herold, chief administrative officer for Providence Queen of the Valley Medical Center in Napa, spoke at that press conference. She said the hospital would have to reduce services if it lost government funding.

That's what keeps her up at night, she said in a Thompson news release for the event.

Thompson, at the North Bay Regional Center meeting, said Medicaid cuts could impact more than the recipients. If you need a type of surgery and the hospital cut those two surgeons, you would be out of luck.

"It doesn't matter if you get your health care through Medicaid or you have buckets of money," he said.

Gabriel Rogin, executive director of the North Bay Regional Center, thanked Thompson for holding the event there.

"In turbulent times like these, we need your leadership more than ever," Rogin told Thompson.

Napa County officials on Monday said the county receives tens of millions of dollars annually through Medi-Cal, the California Medicaid program. The money supports such services as behavioral health, substance abuse treatment and health care for vulnerable populations.

"While it's too soon to predict specific impacts from potential federal cuts, any reduction in Medicaid funding could pose significant challenges to local services," a county statement said. "The county is closely monitoring the situation and working with state and federal partners to ensure continued support for the individuals and families who rely on these critical programs."
