The value of Community Integration is fundamental to the Developmental Disabilities System, especially in California where we are guided by the Lanterman Act.

However, the meaning of Community Integration has changed- on the part of youth and families, and State and Federal Governments.

As a service provider community, we must ensure that we understand these changes, and that we implement them in all aspects of our programs.

Community Integration: From Idea to Implementation

Topics include:

- **CMS rules on Integrated Settings**
- **US Dept. of Justice Rulings**
- **Memo of Understanding between DDS, DOR, & Dept. of Education**
- **Urgent need for Rate Increases**
- **Person-Centered Planning & Employment First**
